Professional Summary

Computer Science (AI & ML) fresher with strong knowledge of React.js, JavaScript, HTML, CSS, Django, RESTful APIs, and Node.js. Completed a 6-month Backend Developer internship at Clever-Ground Technologies, where I developed REST APIs and worked on Learning Management System (LMS) modules. Have a good understanding of Artificial Intelligence and Machine Learning concepts. Certified in Python and React, with a focus on writing clean and maintainable code. Looking for an Entry-level opportunities to learn, grow, and contribute to building high-quality web applications.

Technical Skills

Frontend Technologies

React.js, JavaScript (ES6+), HTML5, CSS.

Backend Technologies

Django, Python, REST API Development.

AIML

GenAI, Scikit-learn, Pandas, NumPy, TensorFlow, Matplotlib, Prompt Engineering,

Database

SQL, MongoDB Atlas, MySQL

Testing & Tools

Git, GitHub, GitLab, Postman, Thunder Client, VS Code

Professional Experience

Clever-Ground Technologies Pvt. Ltd. | Backend Developer Intern | Aug 2024 – Feb 2025

- Contributed to a Learning Management System (LMS) product by developing the Institute Space & Album Management module.
- Designed and implemented 10+ REST APIs using Django REST Framework with filtering, search, and pagination.
- Implemented role-based access control for students and staff, ensuring secure and permission-based operations.
- Enabled role-based booking permissions and enhanced admin control through Django Admin Panel.
- Conducted API testing and debugging using Postman and Thunder Client, improving API reliability and reducing response errors by approximately 20–25%.

Tech Stack: Python, Django, Django REST Framework, PostgreSQL, Postman, Thunder Client, Git

Project Experience

Rentora-Car Rental Management Platform

- Developed a full-stack MERN application enabling users to rent cars and owners to manage their vehicles seamlessly.
 - Implemented secure authentication, booking management, search and filter functionalities, and an intuitive dashboard for owners.
 - Integrated ImageKit for image uploads and MongoDB Atlas for cloud-based data storage.
 - **Tech Stack:** React.js, MongoDB Atlas, Node.js, Express.js, Tailwind CSS, JWT, ImageKit.
-

Needo

- Developing a full-stack platform to connect donors with NGOs for food, clothes, and educational material donations.
 - Implemented donor/NGO authentication, order tracking, and an impact dashboard to track contributions.
 - **Tech Stack:** React.js, MongoDB Atlas, Node.js, Express.js, Tailwind CSS.
-

Real-Time Chat Application

- Built a multi-user chat system using Python sockets and multithreading to support message broadcasting and concurrency.
 - Designed a simple GUI with Tkinter for user-friendly interaction.
 - **Tech Stack:** Python, Socket Programming, Tkinter.
-

Education

B.Tech in Computer Science — Artificial Intelligence & Machine Learning | 2022 - 2026
Shivaji University, Kolhapur, Maharashtra | CGPA:7.61/10.

Certifications & Achievements

- Python Programming — Certificate of Completion
- React Bootcamp — Certificate of Completion
- Core Java — Certificate of Completion
- Full Stack Web Development — Certificate, Edureka
- Participant — Smart India Hackathon (SIH 2025)
- Participant — Agentic AI Days, Google Cloud by Hick2Skill
