Career Objective:

Passionate software developer skilled in React.js, Django, Python, and JavaScript, with hands-on experience in building web and application solutions. Seeking an entry-level role where I can apply my technical expertise to contribute to innovative and impactful products.

Internship Experience:

Clever-Ground Technologies Pvt. Ltd. - Backend Developer Intern | Aug 2024 – Feb 2025

- Contributed to a Learning Management System (LMS) product by developing the Institute Space & Album Management module.
- Designed and implemented REST APIs using Django REST Framework with filtering, search, and pagination.
- Enabled role-based booking permissions and enhanced admin control through Django Admin Panel.
- Tested and validated APIs using Postman and Thunder Client for seamless integration.
- Tech Stack: Python, Django, Django REST Framework, PostgreSQL, Postman, Thunder Client.

Projects :

Rentora-Car Rental Management Platform

- Developed a full-stack MERN application enabling users to rent cars and owners to manage their vehicles seamlessly. Implemented secure authentication, booking management, search and filter functionalities, and an intuitive dashboard for owners.
- Integrated ImageKit for image uploads and MongoDB Atlas for cloud-based data storage.
- Tech Stack: React.js, Node.js, Express.js, MongoDB, Tailwind CSS, JWT, ImageKit.

NEEDO-Helping Those in Need (Ongoing)

- Developing a full-stack platform to connect donors with NGOs for food, clothes, and educational material donations.
- Implemented donor/NGO authentication, order tracking, and an impact dashboard to track contributions.
- Tech Stack: React.js, Node.js, Express.js, MongoDB, Tailwind CSS.

Real-Time Chat Application

- Built a multi-user chat system using Python sockets and multithreading to support message broadcasting and concurrency.
- Designed a simple GUI with Tkinter for user-friendly interaction.
- Tech Stack: Python, Socket Programming, Tkinter.

Dairy E-Commerce Website

- Developed an online dairy products store with user authentication, product catalog, cart, and role-based login system. Integrated secure transactions and dynamic product management.
- Tech Stack: Django, python, HTML, CSS, Bootstrap, SQLite

Education:

2026 – B.Tech Computer Science(AIML) Shivaji University, Kolhapur, Maharashtra (CGPA:7.52/10)

Tools & Platforms:

- **Programming Languages:** Python, JavaScript, Core Java.
- **Web Development:** React.js, Django, HTML&CSS , Bootstrap.
- **Databases& Developer Tool:** MongoDBAtlas, MySQL, GitHub, Gitlab, Postman, VS Code, Thunder Client.
- **Currently Learning:** Backend Development with Node.js & Express.js.

Achievements and Certifications:

- **Python Programming** :Certificate of Completion, **Java Basics** :Skill Certification,**React Basics** -Skill Certification, **React Bootcamp**: Certificate,**Certificate of ParticipationFull Stack Web Development**:Certificate of Attendance, Edureka, **Participated** in Startup Sphere&Face to Face(2025), Python Warriors (2024) at Techno Bharati & SIH-2025.
