CAREER OBJECTIVE

Computer Science graduate specializing in AI & Machine Learning, with practical experience in Python, Django, and REST API and web application development. Comfortable across backend, frontend development, with strong CS fundamentals and an AI/ML foundation. Eager to learn fast, ship reliable software, solve real-world problems and grow into a well-rounded engineer.

TECHNICAL SKILLS

Programming: Python, Core Java, JavaScript (ES6+), SQL

Backend: Django, Django REST Framework, REST API Design

Frontend: React.js, HTML5, CSS3

Databases: PostgreSQL, MySQL, MongoDB Atlas

Core CS Fundamentals: Object-Oriented Programming (OOP), Data Structures & Algorithms, DBMS

Tools & Testing: Git, GitHub, GitLab, Postman, Thunder Client, VS Code, JWT

AI/ML Exposure: Machine Learning, Pandas, NumPy, Scikit-learn, TensorFlow, Generative AI, LLMs, Prompt Engineering

PROFESSIONAL EXPERIENCE

Clever-Ground Technologies Pvt. Ltd. Aug 2024 – Feb 2025

Backend Developer Intern | Pune, India (Remote)

- Built and shipped production REST APIs for the Institute Space & Album Management module of a live LMS product, using Django REST Framework with filtering, search, and pagination support.
- Secured the module end-to-end by designing role-based access control (RBAC) across student, staff, and admin roles, restricting every action to the correct permission level.
- Extended the Django Admin Panel with role-based booking permission controls, giving admins direct oversight of day-to-day operations.
- Tested and debugged APIs endpoints using Postman and Thunder Client, improving APIs reliability and reducing issues before releases.

Tech Stack: Python, Django, Django REST Framework, PostgreSQL, Postman, Thunder Client, Git

PROJECTS

Rentora – Car Rental Management Platform

- Shipped a full-stack car rental marketplace (MERN) covering both sides of the transaction — renters searching and booking vehicles, owners managing their fleet — secured with JWT-based authentication.
- Built an owner-facing dashboard for fleet and booking oversight, and integrated ImageKit for image uploads with MongoDB Atlas for cloud data storage.

Tech Stack: React.js, Node.js, Express.js, MongoDB Atlas, Tailwind CSS, JWT, ImageKit

Needo – Donor-to-NGO Donation Platform

- Built a donation platform connecting individual donors with NGOs for food, clothing, and educational-material contributions, with separate authentication flows for donors and NGOs.
- Designed an order-tracking system and impact dashboard so NGOs and donors can see the real-time status and outcome of each contribution.

Tech Stack: React.js, Node.js, Express.js, MongoDB Atlas, Tailwind CSS

EDUCATION

B.Tech in Computer Science (Artificial Intelligence & Machine Learning) 2022 – 2026

Shivaji University, Kolhapur, Maharashtra | CGPA: 7.61 / 10

HSC (Class XII) 2022 | 64.17%

SSC (Class X) 2020 | 83.20%

CERTIFICATIONS & ACHIEVEMENTS

- Python Programming, React Bootcamp, Core Java —Certificates of Completion | Full Stack Web Development —Session Attendance Certificate, Edureka
- Participant, Smart India Hackathon (SIH) 2025; Agentic AI Days — Google Cloud, by Hack2Skill
