Career Objective

Passionate software developer skilled in React, Django, Python, and Java, with hands-on experience in building web and application solutions. Seeking an entry-level role where I can apply my technical expertise to contribute to innovative and impactful products.

Internship Experience

Clever-Ground Technologies Pvt. Ltd. - Backend Developer Intern | Aug 2024 – Feb 2025

- Contributed to a Learning Management System (LMS) product by developing the Institute Space & Album Management module.
- Designed and implemented REST APIs using Django REST Framework with filtering, search, and pagination.
- Enabled role-based booking permissions and enhanced admin control through Django Admin Panel.
- Tested and validated APIs using Postman and Thunder Client for seamless integration.
- Tech Stack: Django REST Framework, Python, MySQL, Django Admin, Postman, Thunder Client

Adhyayan Education Services Pvt. Ltd - Software Developer Intern | May 2024 – May 2024

- Developed a mini user registration module with basic authentication and vault access.
- Implemented core backend logic using Java for handling user data securely.
- Tech Stack: Java

Projects

Donation Connect Platform (Ongoing)

- Developing a full-stack platform to connect donors with NGOs for food, clothes, and educational material donations.
- Implemented donor/NGO authentication, order tracking, and an impact dashboard to track contributions.
- Tech Stack: MongoDB, Express.js, React.js (Tailwind, shadcn/ui), Node.js

Real-Time Chat Application

- Built a multi-user chat system using Python sockets and multithreading to support message broadcasting and concurrency.
- Designed a simple GUI with Tkinter for user-friendly interaction.
- Tech Stack: Python, Socket Programming, Tkinter

Dairy E-Commerce Website

- Developed an **online dairy products store** with user authentication, product catalog, cart, and role-based login system.
- Integrated secure transactions and dynamic product management.
- **Tech Stack:** Django, HTML, CSS, Bootstrap, SQLite

Personal Portfolio Website

- Designed and deployed a **responsive portfolio** to showcase projects, resume, and skills.
- Added modern features like dark/light mode and smooth scrolling.
- **Tech Stack:** React.js, Bootstrap, CSS

Education

- 2026 – **BTech Computer Science(AIML)**, Shivaji University, Kolhapur, Maharashtra (CGPA:7.5/10)
- 2022 – **HSC**, Maharashtra State Board(Percentage 64.17%)
- 2020 – **SSC**, Maharashtra State Board (Percentage 83.20%)

Tools & Platforms:

- **Programming Languages:** Python, Java, JavaScript
- **Web Development:** React.js, HTML5, CSS3, Bootstrap, Django
- **Databases:** MySQL, PostgreSQL, MongoDB
- **Developer Tools:** Gitlab, GitHub, Postman, VS Code, Thunder Client
- **Currently Learning:** Advanced Java, Backend Development with Node.js & Express.js

Achievements and Certifications

- **Python Programming** –Certificate of Completion, Excel Computers, Kolhapur
- **Java Basics** - Skill Certification
- **React Basics** - Skill Certification
- **React Bootcamp** - 3 Days, Certificate of Participation
- **Full Stack Web Development Internship** - Certificate of Attendance, Edureka
- **Participated** in Startup Sphere (2025), Face to Face (2025), and Python Warriors (2024) at Techno Bharati
